ALBANIAN WATER SPORTS & TOURISM

Tirana, September 1, 2022

Re: Invitation to Tirana SUP Cup 2022

Dear Sir/Madam,

Albanian Water Sports is a sports association launched in 2007 by committed and experienced professionals to promote and support healthy lifestyle and tourism development through water sport activities across Albania. We love riding with the wind and focus on creating a young generation of sailors in Albania to promote environment-friendly, sustainable tourism development.

Stand-Up Paddling is one of our main activities through which we explore the beauties of Albania and engage in healthy sporting activities. During recent years we've been cooperating with local universities to promote this sport among students and organize several local competitions.

On September 24th, 2022, we are organizing a regional Stand-Up Paddling (SUP) race at Farka Lake in Tirana, Albania: Tirana SUP Cup 2022. The race has a length of 3000 meters (3km) and is designed for students from the region with good experience in Stand-Up Paddling. Prizes will be distributed to the winners. This activity is supported by the Tirana European Youth Capital 2022 programme with the financial support of the National Youth Congress in cooperation with the Municipality of Tirana.

We kindly invite students with experience in stand-up paddling from your institution to participate in this event. Please forward this invitation to your students' community and we truly hope to have many participants from your institution. All interested students can register directly for the event by following the link and announcements in our website and social media accounts: https://albanianwatersports.com/2022-tirana-lake-students-race-registration/.

Thank you very much for your cooperation and looking forward to welcome your students in Tirana.

Yours truly,

Bujana Hoti Executive Director
